

NÓTT FINANCE

All-in-One DeFi Platform

Whitepaper

v0.1.0

(April 2022)

DISCLAIMER

This document provides an initial summary of the Nott Finance project. As the project proceeds, this document is expected to evolve over time. The Nott Finance team may post modifications, revisions, and/or updated drafts until the final document is presented prior to the date of the public beta.

This whitepaper sets forth a description of the planned use of the Nott token. This is being provided for information purposes only and is not a binding legal agreement. The Nott Finance will be governed by separate terms & conditions.

In the event of a conflict between the terms & conditions and this whitepaper, the terms & conditions govern. This whitepaper is not an offering document or prospectus and is not intended to provide the basis of any investment decision or contract.

1 PURPOSE

Nott Finance's goal is to be the All-In-One DeFi solution on TON Blockchain. It will provide easy to use interface for interacting with DeFi ecosystem for users.

Nott ecosystem will be consisting of:

- **DEX:** provides trading protocol
- **Launchpad:** easy to use minters and organized Airdrops, IDOs, ...
- **Rune NFTs:** platform's unique valued NFTs
- **DAO:** the whole Nott Ecosystem will become a Decentralized Autonomous Organization and its control will be in hands of the token holders.

Why TON?

- Being fast, secure, and scalable with Low TX fees
- Strong Smart Contract Capabilities
- Fresh ecosystem with lots of opportunities
- Lack of an All-in-One DeFi Platform

2 NOTT TOKEN

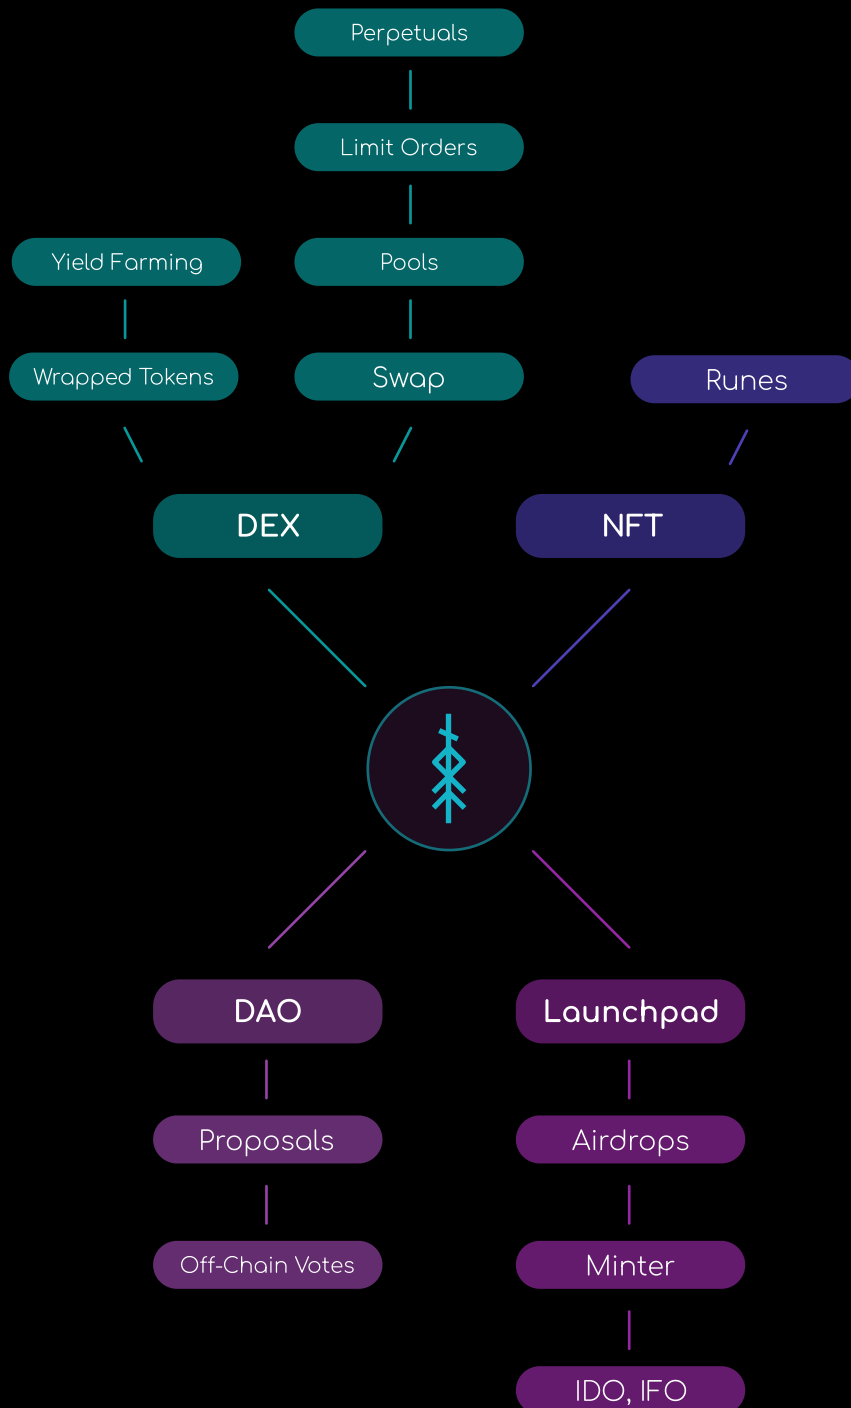

We introduce Nott Token, our platform's main utility token. It will be a fungible token that powers different parts of the platform. The main use-cases will be:

DEX and Launchpad's Utility Nott Token could be used as reward or for participating in network activities. Like stake to earn, yield farmings, IFOs, Airdrops, ... that will be available as parts of the DEX and Launchpad

Governance Token Our platform will become a DAO and the Nott Token will be used as the voting rights of users for proposals. The final goal is to be governed by the community It will be managed by a global community of Nott token holders and delegates

Nott will be mainly deployed on **TON Blockchain** and In the future if It's needed it will operate as a cross-chain platform.

3 NOTT'S VISION

4 DEX

Nott DEX will be the crypto trading protocol that will allow users to trade, earn and participate in the network activities. Our protocol will operate using an Automated Market Maker (AMM), sometimes referred to as a Constant Function Market Maker, in place of an order book.

Nott DEX will consist of:

Swap Instantly swap crypto token

Pools Provide liquidity to pairs and create pools to earn LP fees

Yield Farms Stake LP Tokens to earn rewards

Asset Bridge Easily transfer your assets(coins, tokens, ...) from or to other networks and trade them

Limit Orders Put orders that will get activated on your desired price

Perpetuals Trade Futures with on margin using the borrowed funds and enjoy the trading in both directions

All of these operations will be on the TON Blockchain which enables scalable and low fee transactions. Our protocol is designed to prioritize censorship resistance, security and is a permissionless system.

5 LAUNCHPAD

Nott Launchpad is a protocol that aims to give users the ability to launch their own token and hold their own initial token sale. There is no need for coding; simply go through our platform and design your own token and token launch with a few clicks.

Sales Create launchpad for your token and conduct the sales of it

Minter Create and mint different kinds of tokens easily with our no-code interface

Airdrops Easily airdrop your tokens for users with your desired conditions and tasks

IFO and IDO Conduct IFOs or IDOs for your token on Nott's DeFi Platform

Vesting Locking of Project team tokens in our platform will prevent any rug pulls from the team side, so buyers will be safe.

6 DAO GOVERNANCE

A global community of Nott token holders and delegates will manage the Nott Protocol. Users could participate by proposing upgrades and discussing the protocol's future with the Nott community. With the Governance Portal Voting on official Nott governance proposals and viewing past proposals will be available.

7 RUNE NFTS

Our platform will introduce 96 native NFTs named **Nott Runes**. These NFTs will come with additional benefits in the platform activities.

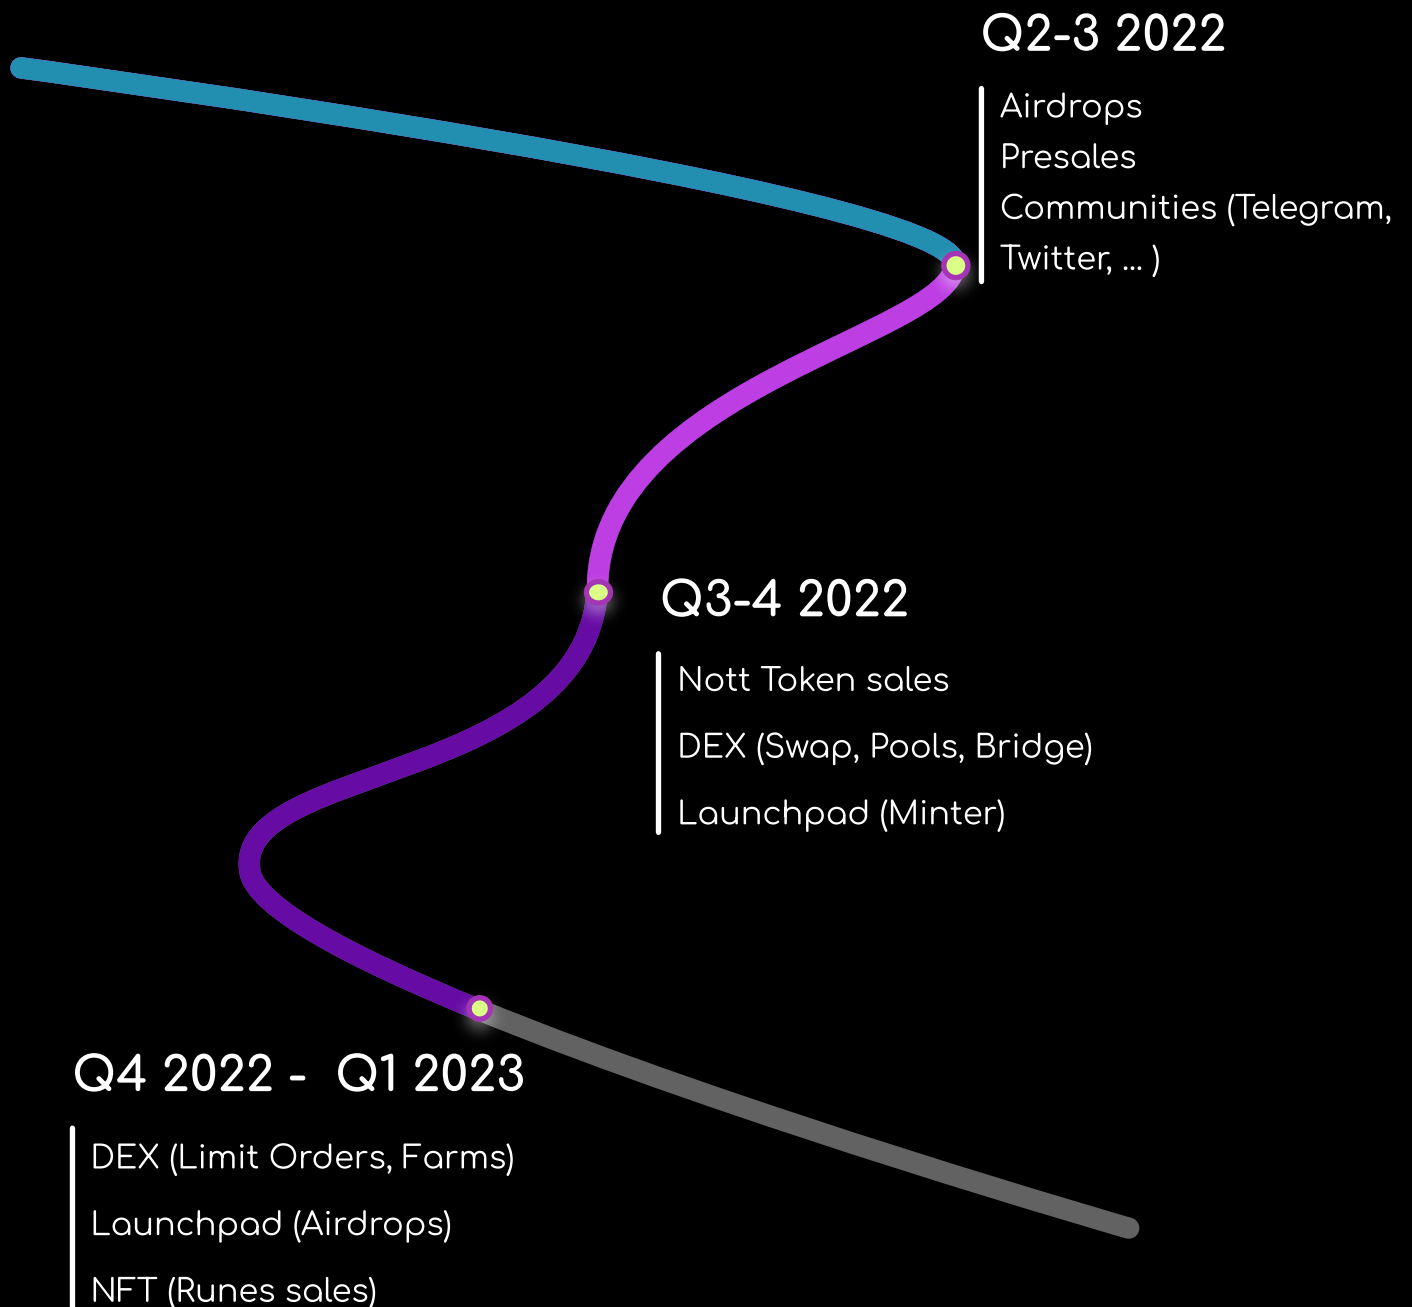

They will have three types: Common, Rare, and Mythical. The benefits of each type will be different. Each Type will contain 32 NFTs.

Holding Runes will give you different rights based on the rune you're holding and you will be benefitted from various network activities. It could be earning part of platform fees, getting discounts, reserved places on sales,

Runes will be minted and will be sold at a future sales event. Also some of them may be distributed as achievement rewards.
